HASSELBLAD H SERIES LENSES

Hasselblad lenses use high performance central lens shutters, making them stable, quiet, and particularly useful for flash work at fast shutter speeds or many other tricky lighting situations. Whether it is a fashion shoot in the studio or an action shoot using portable fill-flash on location, Hasselblad central shutter lenses deliver correct captures at flash sync speeds up to 1/500 sec. That is four times faster than comparable focal plane shutters. And thanks to the T* anti-reflection coating and internal stray light reduction treatments, these lenses produce unbeatable image contrast and color saturation.
